Item	Business Rules
Campaign Name	Security Pack Upselling Campaign
Objective	Increase digital solution adoption by upselling existing Unifi Business broadband customers with Business Security Pack while enhancing cybersecurity protection for SMEs.
Target Market	New and existing active Unifi Business Broadband customers (Inbase)
Campaign Period	Phase 1: 1 Aug 2026 – 30 April 2027 (subject to extension or early termination by TM)
Eligibility Rules	i. Applicable to new and existing Unifi Business Broadband customers only. ii. One Security Pack subscription per eligible broadband account (unless otherwise approved). Subject to service availability and technical feasibility. iii. Security Pack can only be purchased together with an active broadband subscription. iv. Monthly commitment applies throughout the contract period.
Campaign Rules	Promotion cannot be combined with other Security Pack promotional offers unless stated otherwise.
Contract	• 24-month contract applies upon successful subscription. • Security Pack contract will commence upon successful service activation.
Termination	Early termination before contract expiry will be subject to applicable Early Termination Charges (ETC).
	• If broadband service is terminated, the Security Pack subscription will also be terminated. • Promotional benefits will cease immediately upon termination.
Relocation	• Relocation request is subject to service coverage and technical availability at the new premise.
	• Security Pack subscription will continue if relocation is successful.
	• If service cannot be provided at the new location, standard TM relocation and termination policies shall apply.
Exclusions	• Customers with suspended or terminated accounts.
	• Customers under bankruptcy or legal restriction.
	• Accounts with outstanding overdue payments beyond the acceptable threshold.
Sales Channels	• TMSRC Unifi Store Account Managers Direct Sales Selected Resellers

PROTECT • BOOST • GROW

Complete Solutions for Your Business

3 EASY STEPS TO SECURE, CONNECT AND GROW YOUR BUSINESS

STEP 1 GET COMPLETE PROTECTION

NETSHIELD
Protects your internet network from malicious websites, malware and online threats.

BUSINESS SHIELD
Protects your business premises with AI unifi CCTV for smarter and safer monitoring.

CYBERSECURITY (KSOS)
Provides additional protection for your business devices and systems against increasing cyber threats.

ONLY RM55 /MONTH

- Internet Protected
- Premises Protected
- Business Devices & Data Protected

STEP 2 CHOOSE YOUR BROADBAND SPEED

Maintain your current speed or upgrade up to:

300Mbps

500Mbps

800Mbps

1Gbps

2Gbps

Faster For:

- Cloud Application
- CCTV Monitoring
- Video Meeting
- Wireless Internet Backup

STEP 3 CHOOSE YOUR ADD-ON

Wireless 5G Backup (RM25)

- Automatic Internet Backup
- Minimize Business Downtime
- Business Continuity

OR

Digital Marketing Solution (RM200)

- Increase Online Presence
- Reach More Customers
- Grow Your Business

WHY CHOOSE THE 3 SOLUTIONS?

COMPLETE PROTECTION
Protects your internet, premises, devices and business data in one package.

REDUCE CYBER RISKS
Helps reduce the risk of malware, phishing and data breaches.

GREAT VALUE
Only RM55 per month for 3 layers of protection.

PERFECT FOR ALL SMEs
Restaurants • Retail Shops
Offices • Clinics • Workshops
Factories and more.

CLOSING MESSAGE

“For only RM55 per month, your business enjoys complete protection for your internet, premises and devices in one package. A complete solution to keep your operations secure, productive and always connected.”

Protect Your Business. Upgrade Your Speed. Secure Your Future.

SALES AGENT ONE-LINER | “RM55 per month to protect your Internet, Premises and Business Devices in one complete package.”

1 YOUR BUSINESS RELIES ON THE INTERNET

BUSINESS OWNER
We use the internet every day for our business operations.

POS System

CCTV Monitoring

Cloud Storage

Online Transactions

UNIFI SME CONSULTANT
That's great. But is your business protected from cyber threats and operational disruptions?

2 CYBER THREATS ARE ON THE RISE!

Customer Journey – Security Pack

	Discovery	Join	Use	Engage	Pay	Leave
KCI		Bcare Username with Password (NI Only) SMS Order Submission with *Advance Payment value in email SMS Installation Day Reminder SMS Device Delivery tracker (In progress & Delivered) SMS Order Completion (Unifi Biz Fibre, KSOS) Unifi NetShield & KSOS Activation Confirmation & Link to Online Portal	Monthly Report	Ticket Creation	SMS Monthly bill readiness Bill Reminder	Termination Email
Customer Activities	1. Sales Channels: - I receive call / approached by TM sales representative on Upselling Campaign. 2. Package Offering - I receive an explanation on the Upselling Campaign, including business rules and T&C (delivery, installation , contract, description & features of device)	Unifi Business Fibre - I will be contacted by Unifi installer to confirmed on set appointment. A Unifi installer attends my premise for service installation Order & Device Delivery Status - I can track these via Biz Care Portal or Self Serve App - I'm aware the delivery address follows my installation address by default and (cannot) be changed unless my postcode is under NSA. Smart Business Shield Device Installation I am being informed that I have option whether to self install or request Unifi team to install my CCTV upon device delivery Self Installation- I scan the QR code available in the box and being route to Unifi Business shield web for installation guideline - Installation by Unifi – I need to visit Unifi Store or email help@unifi.com.my to set for appointment installation. I am being informed there will be an additional RM120 for this arrangement. Installer will come on the appointment date agreed Unifi Business Digital Solution - I'm aware that the Unifi NetShield is activate without any app or software download upon internet installation. - I'm able to activate my KSOS account within the app using an activation code.	1. I can download the Unifi Smart Home App and read the set-up guide by scanning QR code available in the box.In the app, I'm able to: - View real-time notification - Self-monitor and control services - Receive real-time security alerts - Use voice assistance - Playback past recording in Cloud Storage up to 7 days – anytime, anywhere 2. I can find the user manual and information about the AI Indoor Camera inside the device's box. 3. I receive a pop-up error message with a clear CTA and regular malware reports showing the number and types of malware threats blocked. 4. I am able to manage my device protection via the following link: https://ksos.kaspersky.com/	1. If my AI Indoor Camera is faulty, I can contact 100 to receive a device replacement, I'm aware that I can seek assistance from the manufacturer's support channel for any issues related to smart device. 2. I'm able to perform self – troubleshooting for Unifi Business Fibre via Easyfix available in the app. 3. If I need assistance, I can contact TM Touchpoints via Unifi Contact Center (100, Live Chat, Social Media, or Email) 4. I also can visit any Unifi Store or TMpoint for in-person support* 5. I can enquire/get support from Unifi Business Care Portal/Unifi Apps and highlighted in FAQ. 1. Customers will receive priority through the SME Premium Lane when calling 100	1. I receive a single bill for Upselling Campaign and able to view details in the bill. 2. I'm able to make bill payment at any of my preferred channels (payment gateway, Unifi Mobile app, Bcare, bank transfer)	1. I'm able to terminate service via Care Crew (TM100, live chat), AM or Unifi Store 2. I'm aware/being informed that early termination penalty (ETP) for all services subscribed will be imposed (active contract) and will appear in final bill 3. Upon termination for Business Shield, I can still use the devices, but the 7-day video cloud storage will be discontinued, and the lifetime warranty will no longer apply.
Business Rules	1.Sales channels: TMSRC, Unifi Store, Biz Rovers, Reseller, Account Executives 2.Segment: S10, S20, S30, S40 3.Eligibility: Applicable for New and Existing Customers.	1. Order processing made via eSales Web or Bportal (TaaS). A pop up will appear if device out of stock and processor are not allowed to proceed order 2. UCC to confirm on site readiness with customer prior proceed with TT creation 3. Plug point readiness for AI Indoor camera 4. Delivery will be within 14 days (peninsular Malaysia) and 21 days (Sabah & Sarawak)	1.CCTV will be delivered by 3rd Party. 2.UCC to inform customer on RM120 charge for CCTV Installation 3.SLA device installation is according to appointment date set with customer) 4.Monthly malware reports for Unifi NetShield are sent manually (interim)	1.Any faulty on CCTV camera, customer can receive device replacement by the Unifi Assurance team. (Refer Device Replacement Working Instruction) 3.2nd-Level Assurance: - Escalation via TAAS to DTEM (Unifi NetShield) - By Partner (KSOS)	1.Billing charges is cycle forward 2.TOS & RTN activity based on account level	1. ETP = Business Broadband & Solution/CCTV: Remaining contract months × current Unifi Business Services monthly subscription price (before discount)
